3	July 14-2025	Day 3	7
4	July 15-2025	Day 4	10
5	July 16-2025	Day 5	8
6	July 17-2025	Day 6	9
7	July 18-2025	Day 7	10
8	July 19-2025	Day 8	8

Teaching Methodology

The sessions were conducted through a blend of participatory and interactive and interactive pedagogical methods to ensure maximum comprehension among students with diverse academic backgrounds. The following methodology were adopted:

- Lecture method with clear explanations and relatable real-life examples
- Question and answer sessions encourage active participation.

About the Programme:

The department of Economics SAS GDC Narayanapuram organised a bridge course program for 1st year undergraduate students from July 2025. The program was designed to be the academic transition of students entering degree level education by introducing them to Foundation concepts in Economics before the commencement of regular syllabus.

The bridge course was entered to build confidence among students who may not have studied Economics at the intermediate level while also refreshing the knowledge who had prior exposure to the subject. The session work conducted by experienced faculty members of the department in an engaging and interactive manner.

Objectives of the Programme:

- To introduce students and the basic concepts and principles of Economics.
- To familiarize students with the distinction between micro and macroeconomics.
- To provide an Overview to the Indian and Andhra Pradesh economics.
- To develop awareness about public finance and the role of the government in economic activities.
- To enlighten students about the important government schemes and their socio-economic impact.
- To create academic readiness and motivation for the regular economics curriculum.
