HEARTLY WELCOME TO AN INNOVATIVE ACADEMIC ACTIVITY

SRI ARAVINDA SATHAJAYANTHI GOVERNMENT DEGREE COLLEGE

Narayanapuram, Eluru District

On the Occasion of **National Mathematics Day Celebrations 2022**
 (Birth Anniversary Celebrations of Srinivasa Ramanujam)

GANITHA ASHTAVADANAM

(AN INNOVATIVE ACADEMIC ACTIVITY)

On 21st December, 2022

Organized by **Department of Mathematics**

PROGRAMME SCHEDULE

Session - I (Guests Programme)

1. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

2. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

3. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

4. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

5. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

6. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

7. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

8. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

9. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

10. **Guests Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

Session - II (Students Programme)

1. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

2. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

3. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

4. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

5. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

6. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

7. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

8. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

9. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

10. **Students Programme**
 A programme of the day will be held at 10:00 AM. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college. The programme will be held in the auditorium of the college.

Ganita Ashtavadhanam

■ **1. SAPAASYA PURANAM (COMPLETING OR FILLING UP A MAGIC SQUARE):**

Pruchaka (Questionair) gives the required total. Avadhani fills each row of a 4 X 4 magic square in four rounds. Avadhani fills in the magic square in 4 rounds off and on and finally reveals the required sum which satisfies 18 properties of a magic square.

■ **2. VARAGANANAM (CALENDER CALCULATION):**

The Pruchaka puts year, month and date to know the day on which it falls. The Avadhani responds to it with right reply.

■ **3. DATTANKARIH (DIGIT ALLOCATION):**

Pruchaka gives a 3 digitd number in 1st round. Avadhani adds a three digitd number in 2nd round. In 3rd round, pruchaka adds another three digitd number, in the last round Avadhani adds three more digits to that, making a 12 digitd number which is divis ible by 13.

■ **4. NISHIDHAN KAM (DIGIT PROHIBITION):**

Pruchaka wants an eight digitd number divisible by 7. Avadhani starts to allocate the number digit by digit, beginning from Crores place. Pruchaka prohibits one digit that should not be placed as the following digit i.e., in the ten lakhs place. Thus the pruchaka prohibits the following digits. The 8 digitd number formed by the Avadhani satisfies the conditions of the Pruchaka.

■ **5. MANASSANKALANAM: (MENTAL ADDITION)**

Pruchaka will be saying 3 digitd numbers one for each round and two numbers in last round. Eventually the Avadhani says the sum of those five 3 digitd numbers.

■ **6. GHANAMULAM (CUBE ROOT)**

Pruchaka gives a perfect cube number (not more than 10,00,000). Then Avadhani tells its cube root.

■ **7. AVRUTHA DASAMSAM (RECURRING DECIMAL CALCULATION):**

Pruchaka asks Avadhani to say the recurring decimal of fractions having primes as the denominator i.e., 1/7, 1/13, 1/17, 1/19 etc., Avadhani has to respond.

■ **8. SARASA PRASANGAM (IRRELEVANT & IRREGULAR CONVERSATION):**

The Pruchaka makes out mathematical 3uggleries to create voilent vibrations in the concentration of the Avadhani's mind and heart. They retort amusingly and pleasantly with imrnence interaction. The Avadhani exhibits his exciting gestures lest there should be no cracks or breaches in his mental stability and fertility.

Thus the programme will be conducted in 4 rounds in an inspiring manner.

A Brief report

on

GANITHA ASTAVADHANAM

Title: "GANITHA ASTAVADHANAM"

Date: 21-12-2022

The SAS Degree College in Narayanapuram, Department of Mathematics recently hosted an event called "GANITHA ASTAVADHANAM" On the Occasion National Mathematics Day. The objectives of this event were to highlight mathematical skills, encourage problem-solving abilities, and cultivate a positive competitive spirit among students. The event's format was inspired by the traditional Indian literary and intellectual performance art known as astavadhanam.

Event Format:

As comparable to the traditional Astavadhanam's eightfold exercises, the Ganitha Astavadhanam comprised eight rounds of difficult arithmetic problems. Mathematical knowledge and abilities ranging from elementary arithmetic to sophisticated calculus and beyond were examined in each round. Participants worked on addressing problems both individually and in groups.

Students from all academic levels, including undergraduates, enthusiastically participated in the event. The wide range of backgrounds and skill sets fostered a dynamic environment for learning and cooperation.

The Highlights:

1. **Problem-Solving Rounds:** Through a series of problem-solving rounds, participants demonstrated their mastery of mathematics by tackling issues that required critical thinking and inventive solutions.
2. **Team Challenges:** Participants worked together to tackle challenging mathematics problems within a set amount of time in order to foster collaborative teamwork.
3. **Interactive Sessions:** Faculty members led interactive sessions that offered advice on efficient problem-solving techniques as well as insights into how mathematical principles are applied in the real world.
4. **Rewards and Recognition:** Participants were inspired to aim for excellence in mathematical activities by the recognition and rewards bestowed upon outstanding performers for their outstanding contributions.

PREPARATION OF MATHEMATICAL MODELS

Title: "PREPARATION OF MATHEMATICAL MODELS"

Date: 3 – 4th November 2023

The SAS Degree College in Narayanapuram, Department of Mathematics recently hosted a workshop on "Preparation of Mathematical Models". The objectives of this event were to highlight mathematical skills, encourage problem-solving abilities, and cultivate a positive competitive spirit among students.

Event Format:

The goal of the workshop on the preparation of mathematical models was to give participants the know-how and abilities needed to build mathematical representations of real-world occurrences that are correct. In many disciplines, including biology, economics, engineering, and environmental science, mathematical modeling is essential for analyzing, forecasting, and optimizing complex systems by practitioners and researchers.

The Highlights:

Fundamental Ideas: An introduction to the basic ideas of mathematical modeling was given at the start of the program. The concepts of abstraction, simplification, and mathematical structure representation of real-world systems were presented to the participants. We talked about the fundamental modeling methods, such as difference equations, stochastic models, and differential equations.

Model Development procedure: The participants received a step-by-step handbook explaining the model development procedure. The formulation of problems was emphasized.

A Brief report
on
NUMERICAL METHODS

Title: "NUMERICAL METHODS"

Date: 6 – 8th February 2023

The SAS Degree College in Narayanapuram, Department of Mathematics recently hosted a workshop on "NUMERICAL METHODS". The objectives of this event were to highlight mathematical skills, encourage problem-solving abilities, and cultivate a positive competitive spirit among students.

Event Format:

The Numerical Methods workshop offered a thorough review of the many approaches and algorithms utilized to solve mathematical puzzles that crop up in computer science, physics, engineering, and other disciplines. The goal of the workshop was to provide participants with the theoretical understanding and practical abilities needed for effective problem-solving with numerical approaches.

Students from all academic levels, including undergraduates, enthusiastically participated in the event. The wide range of backgrounds and skill sets fostered a dynamic environment for learning and cooperation.

The Highlights:

- The workshop commenced with an examination of the theoretical foundations behind numerical techniques. A thorough discussion was held on fundamental ideas like approximation, differentiation, integration, and interpolation. The importance of numerical techniques in approximating solutions to challenging mathematical problems became clear to the participants.
- Algorithmic Understanding: A variety of numerical algorithms, such as approaches for locating roots, solutions for linear algebraic equations, and optimization strategies, were presented to the participants. The significance of comprehending the underlying

Date : 28.02.2023

Name of the Resource person: DR.T.K VISWESWARA RAO

No.of lecturers participated: ALL

No.of students participated: 200

Brief report on the activity:

The Department of Physics and IQAC Organised a programme "INTERNATIONAL WEBINAR ON EMERGING TRENDS IN NANOTECHNOLOGY FOR MODERN APPLICATION" at Department of Physics, & IQAC, SAS Government Degree college, Narayanapuram on 28.02.2023. The main objective of this programme is to develop in students thinking power towards the nano science world.

To enhance the student thinking power and ability to nano science , remove the fear of science subjects, science experiments, Experimental orientation, hands on experience and to gain the science knowledge towards the physics subject for school children's and Intermediate students.
